DEPARTMENT OF COMMERCE AND INDUSTRY.

EXPLOSIVES.

Simla, the 9th June 1910.

No. 4230-3.—In exercise of the powers conferred by section 5 of the Indian Explosives Act, 1884 (IV of 1884), the Governor General in Council is pleased to make the following amendments in the rules regulating (1) the manufacture, possession and sale of explosives, and (2) the transport and importation of explosives, published with the notifications in this department, Nos. 9025-3 (Explosives) and 4556-4 (Explosives), dated the 29th November 1906 and the 31st May 1907, respectively:—

AMENDMENTS.

I.—Rules for the manufacture, possession and sale of explosives, issued with this Department Notification No. 9025-3, dated the 29th November 1906.

At the end of clause (2) of rule 1, the word "or" shall be inserted, and after that clause the following shall be added, namely:—

"(3) the manufacture, possession or sale of toy fireworks, such as paper caps for toy pistols, under such conditions and in such quantities as the Local Government, on the recommendation of the Chief Inspector of Explosives, may from time to time determine."

II.—Rules to regulate the transport and importation of explosives, issued with this Department Notification No. 4556-4, dated the 31st May 1907.

For the third paragraph of the preamble the following shall be substituted, namely:

"Nothing in these rules shall apply to the packing, transport or importation of—

(i) capped safety cartridge cases, if otherwise empty, when packed, transported or imported in the same consignment with arms covered by a licence granted under the Indian Arms Act, 1878 (XI of 1878), or

(ii) toy fireworks, such as paper caps for toy pistols, under such conditions and in such quantities as the Local Government, on the recommendation of the Chief Inspector of Explosives, may from time to time determine."

NOTIFICATIONS.

Octacamund, June 17, 1910.

No. 345.—Under section 155 of the Sea Customs Act (VIII of 1878), and in supersession of the rules published in Notification No 364, dated 29th August 1899, on page 1066 of the *Fort St. George Gazette*, Part I, dated 5th September 1899, His Excellency the Governor in Council is pleased to make the following rules for ascertaining and determining what imported spirit shall be deemed to have been effectually and permanently rendered unfit for human consumption and for causing imported spirit to be so rendered:—

(1) Whenever spirit is imported which is said to have been effectually and permanently rendered unfit for human consumption, and on which it is proposed to pay duty *ad valorem*, the Collector of Customs shall send a sample of such spirit to the Board's Laboratory for examination and report. On receipt of this report, the Collector shall decide whether the claim shall be admitted or not. The Collector shall not admit the claim, if the spirit is of less strength than 60° over-proof and unless the importer satisfies the Collector that he is duly licensed to transport and possess such spirit.

(2) Spirit that has not been effectually and permanently rendered unfit for human consumption shall either be so rendered or shall pay duty at the full tariff rate

(3) Imported spirit may be rendered unfit for human consumption under the supervision of officers of the Customs Department by admixture of cacutchouzine. (i) The cacutchouzine to be mixed with the spirit shall be first tested and approved in the Board's Laboratory. (ii) It shall be kept under lock and key by, and be used under the supervision of, the Customs Collector. (iii) It shall be used in the proportion of one part by volume of cacutchouzine to ninety nine parts by volume of the spirit. (iv) The spirit shall not be of less strength than 50 per cent. over-proof.

(4) Any expense which may be incurred by the Collector of Customs in rendering spirit unfit for human consumption or in ascertaining that it has been so rendered shall be paid by the importer.

(5) The quantity of spirit rendered unfit for human consumption, which may be removed from the Custom-house at any one time, shall not exceed the limit prescribed in the rules made under sections 13 and 15 of the Madras Abkári Act, 1886.

(6) When any such spirit is imported in excess of the limit prescribed, the importer may bond such excess part of the consignment or the whole.

Ootacamund, June 24, 1910.

No. 346.—In supersession of the erratum notification, dated 20th October 1909, published at page 1061 of Part I of the *Fort St. George Gazette*, dated 26th October 1909, His Excellency the Governor in Council is pleased to appoint Mr. W. NOTIFICATION BY GOVERNMENT.

NOTIFICATION.

Ootacamund, June 23, 1910.

No. 70.—The following Resolution of the Government of India is republished:—

HOME DEPARTMENT.

EDUCATION.

Simla, the 8th June 1910.

Nos. 609—620.

The Government of India have had under consideration the question whether certificates of identity should be granted to Indian gentlemen proceeding to America for the purposes of study, as is at present done in the case of Indian students going to Japan under the orders contained in the Home Department Resolution Nos. 481—492, dated the 15th November 1901.

2. It is believed that the grant of such certificates would be of use to the holders of them, and, with the approval of the Secretary of State, the Governor General in Council now desires to recommend all Indian gentlemen proceeding to America for purposes of study or otherwise to obtain before their departure from India, an authoritative certificate of identity, in the form appended to this Resolution, signed by the head of the district (in a Presidency town, the Commissioner of Police) in the case of residents of British India, and by the Political Officer in that of residents of Native States. The District or Political Officer will endorse on the certificate of identity his opinion whether the person is or is not a British subject "by birth" or

"by naturalization" or a subject of a Native State. Quarterly returns of the certificates granted will be submitted by the Local Governments and Administrations to the Government of India for transmission to the British Embassy at Washington and to His Majesty's Secretary of State for India. But, to avoid delay, the District or Political Officer, when granting or countersigning a certificate, will at the same time send a copy of the certificate direct to the British Embassy at Washington and also send a duplicate copy of it direct to the Under Secretary of State for India.

3. Local Governments and Administrations are requested to take steps to secure that all reasonable facilities are given for obtaining certificates of identity, and that wide publicity is given to these orders.

Form of Certificate of Identity.

1. Name of applicant.
2. Father's name and caste.
3. Residence.
4. Age of applicant.
5. Nationality of applicant.
6. Social and pecuniary status of father (or guardian).
7. Date of probable departure of applicant from India.
8. Object of applicant's visit to America.

Signature of District Officer
(in a Presidency town, the Commissioner of Police) or Political Officer.

L. M. WYNCH,
Ag. Secretary to Government.

Office of the Director of Public Instruction,
Madras, 27th June 1910.

A. G. BOURNE,
Director of Public Instruction.

SECONDARY SCHOOL-LEAVING CERTIFICATES.

Certificate forms are now available and Headmasters of Secondary Schools can obtain them from the Inspector or Inspectress of the Circle on submission of Treasury receipts in support of the payment of the cost of certificates of five annas each.

The first public examination will be held on the 27th March 1911 and following days.

Pupils appearing for this examination will without exception be required to produce a certificate of attendance for the term which commenced in January 1910.

Pupils appearing for the public examination subsequently to 1911 will not, as notified in the *Fort St. George Gazette*, dated 21st December 1909, be required to produce the abovementioned certificate.

Private candidates cannot be admitted to the examination and in the case of pupils duly presented for the examination no notice will be taken in the certificate of subjects not studied in a Secondary School or in a technical school under the same management and control and recognised as a branch of the Secondary school.

Information as to the courses of study in the various subjects can now be furnished by Headmasters, who should be addressed in the first instance on any matter connected with the scheme for the award of Secondary School Leaving Certificates. Headmasters should address the Circle Inspector or Inspectress and not the office direct.

The Board has been empowered by Government to complete the certificates of pupils presented by secondary schools in the Native States of Pudukkottai, the Province of Coorg and the Civil and Military Station of Bangalore.

Office of the Director of Public Instruction,
Madras, 11th June 1910.

A. G. BOURNE,
Director of Public Instruction.

EXAMINATION FOR TECHNICAL TEACHERS' CERTIFICATES—1910

The examination will be held during the months of November and December 1910.

2. Applications must reach the Inspector of European and Training Schools, Old College, Nungambakam, not later than the 31st July 1910. They must be prepared in the prescribed printed form, copies of which can be had on application to the Inspector.

3. The centres of examination will be fixed by the Director of Public Instruction from among those chosen by candidates on receipt of applications.

4. The place and the exact date of examination will be communicated to the candidate in due course by the Inspector.

5. The following are the rates of fees for the examination :—

Grade.	Rs.
Advanced	6
Intermediate	4
Elementary	2

6. The fee must be paid into a Government treasury and the Treasury officer's receipt sent with the application for admission to the examination.

7. The fee paid by a candidate who absents himself from the examination will, on no account be refunded to him whatever may have been the cause, public or private, that prevented him from attending the examination. Nor will the fee be refunded to any candidate who may be found to be ineligible to appear for the examination. Candidates are accordingly warned to satisfy themselves, before sending in their applications, that they are eligible under the rules to be admitted to the examination.

8. Applications not prepared in the prescribed printed form, or defective in any particular, or insufficiently stamped, or received after the prescribed date, will be returned. Candidates anxious to assure themselves that their applications have been received and registered should enclose *addressed post-cards in their respective applications*. Such post-cards will be returned with the acknowledgment to be addressed.

9. The attention of candidates is drawn to the rules published in the Madras Educational Rules 5th edition, rules 153 to 162.

Office of Inspr. of European and Training Schools, Madras, 9th June 1910.

E. W. MIDDLEMAST, M.A., *Inspector of European and Training Schools.*

ADMISSION INTO GOVERNMENT TRAINING SCHOOLS FOR MASTERS.

Notice is hereby given that candidates for admission into the Government Training Schools for Masters should apply to the Inspectors of the circles concerned for forms of application.

Office of Inspr. of European and Training Schools, Madras, 23rd June 1910.

E. W. MIDDLEMAST, *Inspector of European and Training Schools.*

DEPARTMENT OF INDUSTRIES—REVENUE DEPARTMENT.

GOVERNMENT SCHOLARSHIPS—1910-1911.

(*Tenable in Industrial schools under the control of the Department of Industries.*)

One hundred and ninety-nine scholarships will be awarded in recognised Industrial Schools and will be tenable in the classes and for the periods mentioned below :—

56 Scholarships of the monthly value of Rs 1-8-0 tenable for one year in Standard C
55 Scholarships of the monthly value of Rs. 2 tenable for one year in Standard D
80 Scholarships of the monthly value of Rs 3 tenable for one year in the Elementary class.
20 Scholarships of the monthly value of Rs. 6 tenable for two years in the Intermediate class.
8 Scholarships of the monthly value of Rs. 9 tenable for two years in the Advanced class.

199

The scholarships in Standards C and D and in the Elementary Industrial classes will be awarded on the results of the examinations in Standards B, C and D respectively and those in the Intermediate and Advanced classes on the results of the Government Elementary and Intermediate Technical Examinations respectively. No scholarships will be awarded on the results of the highest examination in any subject.

The conditions of award are as follows :—

1. The candidate shall ordinarily have been a student at the time of the examination and at least one year previously in a recognised Industrial School. *Scholarships in industrial subjects will ordinarily be given only to members of the artisan castes or to others whose families are already engaged in the trade.*

2. The age of the candidate at the time of the examination shall not have exceeded 16 years in the case of Standards C and D and Elementary examination class and 18 years in the Intermediate and 22 years in the Advanced examination classes. In the case of Muhammadan candidates the age-limit will be raised by two years.

3. The scholarship in a given subject shall be awarded to the candidate who obtains the highest number of marks in that subject, provided that he has passed in the first class. Scholarships may also be awarded at the discretion of the Director to other pupils of promise whose pecuniary circumstances are certified by the head of the school to be such as to prevent them from prosecuting their studies without assistance. The claims of those sections of community who are most in need of aid, will, other conditions being satisfied, be first considered.

4. Candidates who are preparing for a group certificate or a diploma shall have preference over those who are studying single subjects only.

5. No student shall be allowed to hold at the same time more than one scholarship. If eligible for more than one, he shall elect which he will hold, and the scholarship thus set free will be awarded to the next most deserving student.

6. The candidate shall bind himself to prosecute his studies in the subject in which he has passed and for which he is to receive a scholarship in a recognised Industrial School.

General Regulations.

All applications for scholarships awardable under this notification should be submitted to the Director of Industries, Madras, by the correspondent of the institution in which the pupil studied in 1909, through the correspondent of the institution in which he intends to study, on printed forms which may be obtained from the Director. All applications should be dated. Separate forms should be used for each grade of scholarship. If one form is not large enough, the list should be continued on another form.

2. The applications should reach the Director within three weeks of the publication of this notification, or of the publication of the results of the Government Technical Examinations on which the scholarships are awarded, if such results are published after the date of this notification. Those submitted after the prescribed date, will be liable to rejection for that reason.

3. Any scholarship vacated in the course of the period for which it is tenable may be awarded for the remaining period to an eligible applicant in the same year of study as the holder of the scholarship vacated.

4. The names of selected candidates will be notified by the Director in the *Fort St. George Gazette*.

5. Heads of institutions may grant leave without diminution or loss of scholarship for a period not exceeding one month to scholars who are absent in consequence of severe sickness; but if the leave exceeds this period, no allowance is to be granted for the excess period. Casual leave without diminution or loss of scholarship may be granted for good and sufficient reasons for a period not exceeding fifteen days in the year, provided such leave does not immediately precede or succeed gazetted holidays. Under the above conditions, leave for scholarship-holders may be sanctioned by the head of the institution, but should be reported to the Director. If a scholarship-holder absents himself without good reason on the re-opening day after the vacation for the institution, the scholarship for the vacation is liable to be withheld at the Director's discretion.

6. No person receiving a scholarship under this notification shall be permitted to hold another scholarship provided wholly or partially by Government without the special sanction of the Director. Such sanction will be accorded only for very distinguished merit.

7. Where the order of merit cannot be clearly ascertained, the Director may at his discretion order a further competitive examination among those who are eligible for scholarships.

8. All scholarships tenable under the above rules are liable to forfeiture, for idleness, misconduct, irregularity in attendance or failure to make due progress or to secure annual promotion.

9. A scholarship held in any class shall run from the beginning of the month in which the holder joins the class and shall not continue to be drawn after he ceases to attend the class. The scholarships are payable monthly.

10. In all cases where poverty has been made a condition of award, applications will be summarily rejected unless the evidence of poverty such that but for the scholarship the applicant could not continue his studies, is thoroughly satisfactory.

11. In addition to the register required to be maintained under rule 80 of the Madras Educational Rules an acquittance roll containing the following information shall be maintained by the heads of the institutions concerned and shall be produced at the time of the departmental inspection of the institution :—

(1) Number.
(2) Name of scholarship holder.
(3) Standard of scholarship.
(4) Monthly value of the scholarship.
(5) Period tenable.
(6) Number and date of the order in which the scholarship was sanctioned.
(7) Month for which the scholarship bill was drawn.
(8) Date of encashment of the bill.
(9) Date of disbursement of the scholarship money.
(10) Signature of the scholarship-holder.
(11) Remarks.

K. T. B. TRESSLER,
Ag. Director of Industries.

NOTICE TO IMPORTERS OF PAINTS, ETC.

Under the revised rules Nos 49 and 50 of the Merchandise Marks Manual issued by the Government of India in the Department of Commerce and Industry regarding goods having applied to them false trade description in respect of the material of which they are composed, in the case of white zinc, red lead, white lead and similar substances, linseed oil and turpentine which are described as such, no qualifying description will be required when the percentage of impurities is less than 5 per cent. If the percentage of impurities exceeds 5, but is less than 50, the article should be marked with an adequate qualifying description such as "adulterated" or "reduced" and if it is 50 per cent or more, the actual percentage of adulteration should be marked in addition to the adequate qualifying description The marking where required should be conspicuous and accompany every application of the description

2. The percentage of adulteration in the case of white zinc, white lead, red lead and similar substances will be calculated on solid pigment alone and not on the solid pigment and oil together, and a margin of 5 per cent allowed before requiring a description or marking already applied to be altered. This margin will be increased to 10 per cent in the case of turpentine.

3 The above revised rules will be given effect to at the ports in the Madras Presidency from the 15th September 1910.

1. Dealwood cases, each measuring 30" length × 23" breadth × 23" height ..	No. 500	From 1st July 1910 to 30th June 1911
2. Do. do. do. and lined with new tins	220	
3. Cocoanut coir ropes each measuring 15 yards	4,320	
4. Circular printing pads each 4½" in diameter	..	

The thickness of the planks of the dealwood cases to be full ½" all round, the straps round the cases to be of new iron, their surface to be even and the cases to have not more than 3 planks on each side.

2. Each tender should be accompanied by a deposit of Rs. 20 which will be returned if the tender is not accepted.

3. The tenderers should specify the rates at which the articles will be delivered at the office of the Inspector-General of Registration, North Beach Road, Madras.

4 The successful tenderer will be required to supply for inspection samples of articles agreed to be supplied by him and to deposit 10 per cent of the value of the articles as security money within three days from the date of the acceptance of the tender. On his depositing the said amount and duly executing a deed of contract in the form prescribed, the sum of Rs. 20 received with his tender will be returned. The amount will be forfeited to Government if he fails to pay up his deposit and to execute the necessary deed.

5 Samples of articles required, may be seen at the office of the Inspector-General of Registration between 11 A.M. and 5 P.M. on any day except Sundays and holidays.

9. The Inspector-General reserves to himself the right of rejecting any tender without assigning any reasons for doing so.

Madras, 8th June 1910.

C. M. SCHMIDT,
Inspector-General of Registration.

TENDERS FOR THE PURCHASE OF CASUARINA BILLETWOOD.

Notice is hereby given that sealed tenders for the purchase of the undermentioned quantities of casuarina billetwood stacked in billets of not more than 2½ *feet* and roots and melars in compartment numbers 6 and 1 of Periyakuppam R. F., Cuddalore Range, will be received by the District Forest Officer, South Arcot, up to 2 P.M. on 20th July 1910.

2 Separate tenders specifying the price offered per ton of billetwood in each lot and the amount in lump sum for roots and melars in each compartment should be submitted.

3 Tenders should be accompanied by a treasury chalan for Rs. 300 for the billetwood in C. 6 and Rs. 150 for each of the other items. The cover containing the tender should be sealed and addressed to the District Forest Officer, South Arcot district, and should be superscribed "*Tender for Casuarina.*"

4. Tenderers should state in their tender the time required by them for the removal of the produce from the forests.

5. Within seven days of receipt of intimation accepting a tender, the balance of the sale amount should be paid as also a further security of 10 per cent of the sale amount lodged in the Postal Savings Bank in the name of the District Forest Officer. Failing these, the offer will be cancelled and all moneys paid forfeited and if the sale be reheld it will be at the risk of the defaulting purchaser who will forfeit all gain and in the event of a loss will be required to make good the deficiency between the total amount payable by him under the terms of the original tender and the total amount payable by the successful bidder at the resale. In the latter case the forfeited amounts will be deducted from the loss arising from the resale and the remainder if any will be recoverable from the defaulter in the same manner as if it were an arrear of Land Revenue. Should however the forfeited amount be greater than the loss by the resale the whole of such amounts will be credited to Government.

6. The earnest deposits of the unsuccessful bidders will be returned to them.

VACANCIES.

APPOINTMENT OF SUB-INSPECTORS.

APPLICATIONS are invited from qualified Telugu candidates for the post of Sub-Inspector of Police. Applicants *who must be graduates or have passed the F.A. Examination* should be of good social position and standing and be able to produce proof of good character. They must be not under 21 nor over 25 years of age, nor less than 5' 6" in height and 32" round the chest. Appointments are subject to the production of a medical certificate of physical fitness *which is granted free of cost* on the requisition of a District Superintendent of Police.

Note.—The *minimum* educational qualification is the Matriculation Examination, but only a few posts will be given to applicants not better qualified. None need apply who have not matriculated.

2. The promotion of head constables to the grade of Sub-Inspector has now been restricted to a very small proportion and the prospects of Sub-Inspectors of proved character, conduct and capacity have been much improved in that they are eligible for promotion to the new grade of Circle Inspectors about to be introduced in consequence of the reorganization of the Police Department. The pay of Inspectors has not only been increased but their prospects have been improved by the throwing open to them of the posts of Deputy Superintendents of Police in the Provincial service on pay ranging from Rs 250 to Rs. 500, eventually rising to a maximum of Rs 900 if placed in charge of districts.

3 The pay of Sub-Inspectors runs from Rs. 50 to Rs 100 with a horse allowance of Rs. 15 per mensem. They are entitled to liberal halting and travelling allowances and from the beginning of their service draw double second-class fares when travelling by train subject to the provisions of the Civil Service Regulations

4. Selected candidates will undergo a year's training at the Provincial Training School, Vellore, during which period they are granted an allowance of Rs. 300 to cover expenses. This period of service qualifies for pension.

5. The next selections will be made in August 1910 by Deputy Inspectors-General of Police to whom applications will be forwarded by Superintendents before August 1st. Forms of application and copies of conditions of employment are available in all District Police offices. Applications from suitable candidates will be registered at any time of the year

6 Applicants must know Telugu and be able to read and write it

7. *Applications should in the first instance be made to Superintendents of Police* of the districts to which the applicants belong Permanent residents of Madras should apply to the Deputy Commissioner of Police of their division. Residents of native states should apply to the Superintendent of Police of the British district nearest to them

The total trade of the Madras Presidency in the year under review is the largest during the past thirty years and shows an increase of 1 crore and 96 lakhs of rupees or 4 per cent. over that of the previous year. This increase is almost entirely due to the expansion of the coasting trade, which shows a rise of Rs. 180 lakhs or 15 per cent. over the figures of the previous year. The total foreign trade expanded by Rs. 16 lakhs or ·5 per cent. as the net result of a decrease of 11 per cent. under imports and an increase of 9 per cent. under exports. The year under review followed two years of expansion, in the latter half of which there had been considerable overtrading and unsound business, bringing in its train an inevitable set-back in imports and consequent trade depression.

The foreign imports of private merchandise, excluding treasure and Government stores, fell off by Rs. 208 lakhs or 18 per cent for which the decreased imports of cotton twist and yarn, cotton manufactures and kerosene oil are almost entirely responsible. The exports of country produce increased by Rs. 125 lakhs or 7 per cent. owing to larger exports of raw cotton and seeds. Under coasting trade, imports improved by Rs. 233 lakhs or 29 per cent. which was the result of larger imports of grain and pulse due to the unfavourable agricultural season, while exports fell by Rs. 53 lakhs or 9 per cent. owing to smaller exports of earthnut oils and seeds.

Balance of trade.—The following statement shows the balance of trade in merchandise and treasure under foreign trade during the past five years.

The total gross revenue declined by Rs. 8 42 lakhs or 13 per cent. Import duty fell by 5·71 lakhs or 10 per cent., but is still above the average of the past five years. The chief decline occurs under cotton manufactures and kerosene oil, the duty on which fell by Rs. 5·41 lakhs and 2·20 lakhs, respectively. Export duty also fell by 2·71 lakhs or 29 per cent. owing to smaller exports of rice to Ceylon.

Standard price level.—The following table shows variations in the average prices of certain articles. The average prices for the year 1873–1874 have been taken as 100 for 20 articles and for the remaining articles the average prices for 1883–1884 have been taken as the standard.

In imports the heaviest deficit is shown in group VII-A, and is due to smaller imports of cotton manufactures. The falling off in groups III-B, III-D and V is due to the decline in imports of iron and steel in III-B, of carriages and trucks in III-D and of kerosene oil in V. Under exports the decrease in II must be attributed to smaller exports of grain and pulse and coffee, partly counterbalanced by larger exports of copra, spices and tea. Larger exports of raw cotton and seeds contributed to the increase in Group VI.

I.—ANIMALS, LIVING.

Horses.—The number of horses imported during the year was 1,031, being an increase of 43 over the number imported in the previous year. The value fell by Rs. 45 lakh which is due to the fact that few high priced horses were imported from Australia during the year.

II.—ARTICLES OF FOOD AND DRINK.

Malt liquors.—Imports have again declined by 29,933 gallons or 5 per cent., the decrease being due to the growing popularity of country brewed malt liquor, especially country stout, and the reduction of British troops in this Presidency. The placing of a large military contract for bottled beer in Bombay, instead of in Madras, had also an effect on the trade. Of the total imports, the United Kingdom supplied 497,343 gallons.

Spirits.—In quantity imports of brandy were only slightly higher than in the previous two years, but there was a reduction in value. Whisky rose by 2,764 gallons or by 4 per cent., the supply having been imported almost entirely from the United Kingdom. Cheap whiskies appear to find a ready market in this Presidency. Amongst other sorts of spirit, Colombo arrack fell by 17,873 gallons owing to the rise in the selling price and the increased consumption of country arrack. For the same reasons the consumption of Malabar toddy arrack fell from 21,660 gallons to 18,220 gallons. Methylated spirits also declined by 800 gallons owing to the larger use of the local product. There have been no importations of this spirit since August last.

Wines.—The increase under the total quantity of wines is due to larger imports of claret, port and sherry while the lower value is the result of a cheaper class of port wine being imported.

Provisions.—Total imports declined by Rs. 13 lakh. Canned and bottled provisions and dates show decreases in value while condensed milk, bacon and hams and biscuits show increases. Of the total value of imports of Rs. 20·71 lakhs under this head, the United Kingdom supplied 14·63 lakhs.

Spices.—Total imports amounted to 26·47 million pounds valued at Rs. 33·17 lakhs against 28·20 million pounds valued at 34·56 lakhs. Betel-nuts form the bulk of imports under this head and amounted to 25·98 million pounds valued at Rs. 31·79 lakhs against 26·89 million pounds valued at 31·60 lakhs. The decrease is due to the high price prevailing in Ceylon for sun-dried nuts. Pepper fell from 1,131,174 lbs. valued at Rs. 2·35 lakhs to 347,642 lbs. valued at ·71 lakh, a smaller supply being drawn from the Straits Settlements on account of the abundant crops on the west coast of India.

Sugar.—The imports were as follows:—

The imports of sugar were the largest on record and show an increase of 63 per cent. in quantity and 65 per cent. in value over those of the previous year. The quantity of refined sugar increased by 49 per cent. and the value by 53 per cent.,

Java being the chief source of supply. The increase is due to a smaller area under cane cultivation in India, to the cheapness of the imported sugar and to its adaptability to being turned into sugar-candy which is growing in use among the people generally. The imports of beet sugar also increased from 46,765 cwts. to 53,439 cwts. The imports of unrefined sugar from Java amounted to 55,143 cwts. valued at Rs. 4·67 lakhs, while those in the previous two years were practically *nil*. This is due to high prices and shortness of local production for refining purposes which led the distillers to get molasses as well from Java.

III.—METALS AND MANUFACTURES OF METALS.

Hardware and cutlery.—The values of the trade with the principal countries of supply are given below :—

The imports decreased by 10 per cent. but were still greater than the average imports of the previous five years. The largest drop is in "Other sorts" the items of which are too numerous for separate details to be given and is due to the existence of large stocks from the previous year's heavy imports. Imports from the United Kingdom which supplies the major portion of the hardware fell by 9 per cent.

The trade in metals shows a shrinkage of 199,105 cwts. in quantity and Rs. 12·42 lakhs in value as compared with the previous year's figures.

Brass.—The decline of 5,289 cwts. valued at Rs. 2·66 lakhs was due to heavy imports in the previous year.

Copper.—The imports of copper were the largest on record and show an increase of 18 per cent. in quantity and 7 per cent. in value, mixed or yellow metal mainly contributing to the increase. The imports of this latter metal were normal during the first half of the year but increased during the latter part in consequence of a fall in price. The value of the imports of copper from the United Kingdom was Rs. 18·92 lakhs and from Germany 11·93 lakhs against 19·97 lakhs and 7·91 lakhs, respectively, in the previous year.

Iron and steel.—Imports of iron fell by 12 per cent. and steel by 14 per cent., the decrease being due to large stocks on hand from the previous year's speculative purchases. Iron bars fell by Rs. 8·20 lakhs and iron sheets and plates by 2·88 lakhs. Of the 42·59 lakhs' worth of iron imported, Rs. 20·64 lakhs were from the United Kingdom and 18·95 lakhs from Belgium. Steel bars fell by Rs. 3·48 lakhs while steel beams, pillars, etc., increased by 1·52 lakhs owing to the high prices ruling for Rangoon teak. The United Kingdom supplied 11·31 lakhs' worth of steel and Belgium 7·56 lakhs' worth.

Tin.—Imports of tin (mostly block tin) fell by 692 cwts. in quantity and Rs. ·60 lakh in value.

Other metals.—Aluminium which forms the bulk of imports under this head amounted to 4,477 cwts. in quantity and Rs. 3·46 lakhs in value against 2,275 cwts. valued at Rs. 1·91 lakhs in the previous year. The increase is due to the growing popularity of the metal for use as domestic utensils and to the fall in price in the United Kingdom, which supplied almost the whole quantity.

Machinery and mill-work.—Imports decreased by Rs. 1·92 lakhs in value or by 4 per cent. The value of locomotive and other steam engines rose by Rs. 1·78 lakhs. Electrical machinery fell by Rs. ·95 lakh in value owing to the completion of large installations, and mining machinery by Rs. 1·32 lakhs as a result of smaller imports for the Kolar Gold Fields. Imports of textile machinery improved by Rs. 2·87 lakhs mainly owing to the construction of new spinning mills at Coimbatore and Madura. The chief items among "other sorts" were beltings for machinery, oil and gas engines, steam cranes, machinery for railway workshops and hydraulic presses. Of the total trade under machinery, the United Kingdom contributed Rs. 41·93 lakhs against 39·42 lakhs in the previous year.

Railway plant and rolling stock.—There was a further decrease in the value of the trade under this head by 14 per cent., the total imports being Rs. 62·41 lakhs against 72·36 lakhs in the previous year. Carriages and trucks showed a decrease of Rs. 21·17 lakhs, rails and fishplates of 6·86 lakhs and other sorts of materials of 6·15 lakhs owing to large imports in the previous year, while locomotive engines and tenders showed an increase of Rs. 14·73 lakhs, sleepers and keys of iron of 3·82 lakhs and sleepers of wood of 6·20 lakhs due to renewals and additions to stock.

IV.—CHEMICALS, DRUGS, MEDICINES AND NARCOTICS AND DYEING AND TANNING MATERIALS.

The total value under this head increased by Rs. 3·90 lakhs or by 11 per cent. Chemicals increased by ·33 lakh, the increase being shared between chemical manures and soda compounds, which shows industrial activity in the country. Under drugs and medicines, imports of camphor amounting to 420,767 lbs. valued at Rs. 4·38 lakhs showed an increase of 49 per cent. in quantity and 37 per cent. in value due to the reduction of price by the Japanese Camphor Monopoly resulting from the competition of artificial German camphor and Chinese camphor with the Japanese product in the European markets. The average value per lb. was one rupee as compared with Re. 1–2 in the previous year. Hong Kong and Japan supplied 2·77 and 1·25 lakhs' worth, respectively, against 2·08 and ·87 lakhs in the previous year. Tobacco leaf shows an increase of 70,250 lbs. in quantity and a decrease of Rs. ·49 lakh in value due to larger imports of low grade tobacco from Ceylon and the United States of America for local manufacture and to smaller imports of fine wrapper leaves from Holland. Cigarettes fell from 374,906 lbs. valued at Rs. 4·11 lakhs to 319,275 lbs. valued at 3·93 lakhs. The United Kingdom contributed Rs. 2·05 lakhs and the United

States of America 1·66 lakhs. Under dyeing and tanning materials, alizarine and aniline are the principal classes of dyes imported. The imports of alizarine dyes rose from 1,268,032 lbs. valued at Rs. 7·72 lakhs to 1,331,635 lbs. valued at 8·50 lakhs and aniline dyes improved by ·42 lakh, owing to the growing popularity of these dyes in dyeing yarns. Belgium was the chief source of supply.

V.—OILS.

Mineral oils which form the most important sub-head, had a set back of Rs. 21·49 lakhs or 32 per cent. The following statement shows the imports under the several sub-heads:—

Imports of kerosene oil have contracted in volume by 36 per cent. and in value by 33 per cent. The falling off from Russia was 75 per cent. and from the Straits Settlements, Sumatra and Borneo 57 per cent. The imports from the United States of America which had been advancing steadily also fell by 8 per cent. The shrinkage in foreign kerosene oil has been more than counterbalanced by the large receipts of Burma oil which rose from 10,094,945 gallons in 1908–1909 to 14,405,140 gallons or by 42 per cent. The effect of the short supply of foreign oil is visible in the low level of kerosene oil in bond, the monthly average quantity in bond being 355,455 gallons against 646,622 gallons in 1908–1909. The enhancement of duty towards the close of the year is likely to affect the trade of the foreign oil still further. Of the total imports of kerosene oil, 5,038,497 gallons or 53 per cent. were in the form of bulk oil against 63 per cent. in the previous year. Of this, America supplied 45·68 per cent., Sumatra and the Straits Settlements 42·88 per cent, and Russia 11·44 per cent. Case oil was represented by 47 per cent. of the imports and was wholly supplied by America. Imports of lubricating oils fell by Rs. ·65 lakh the supply from America having been limited. Petrol or motor spirit and benzine amounted to 13,052 gallons valued at Rs. 17,506 against 34,548 gallons valued at Rs. 38,888. The fall is due to the larger use of Burma petrol, imports of which rose from 46,728 gallons in 1908–1909 to 85,920 gallons in 1909–1910. Imports of vegetable oils also fell in value from Rs. 1·40 lakhs to 1·05 lakhs.

VI.—RAW MATERIALS AND UNMANUFACTURED ARTICLES.

The total value of imports under this head advanced by Rs. 5·25 lakhs, coal and timber mainly contributing to the increase.

Imports of foreign coal rose from 21,730 tons valued at Rs. 3·59 lakhs to 29,379 tons valued at 4·64 lakhs owing to smaller imports of Bengal coal which fell from 380,367 tons valued at 31·71 lakhs to 301,972 tons valued at 25·56 lakhs, and the imports of coke fell by Rs. 1·28 lakhs in value, owing to the large imports in the previous year. Patent fuel advanced by Rs. 1·13 lakhs in value. The imports of teakwood chiefly from Siam and Java improved by Rs. 2·95 lakhs and those from Burma by 4·35 lakhs. Imports of other timber advanced by Rs. 3·46 lakhs owing, mainly, to larger imports of jarrah wood sleepers from Australia for railway purposes.

As predicted last year there was a large decrease in the imports of cotton goods in the year under review. The heavy stocks on hand at the beginning of the year, the rise in the price of American and Egyptian cotton owing to short crops, the large increase in Home prices and the absence of demand owing to the diminution in the purchasing power of the people as a result of bad harvests and of the extremely high prices of food grains were the contributing causes. In addition, prices in the local market did not respond to the rise in the value of the raw material and large business was therefore difficult. Although the Lancashire cotton trade was therefore in a worse condition than for many years back, conditions during the coming year may improve as the stocks of goods in the local markets are not by any means unusually large at present.

Cotton Twist and Yarn.—There was a smart decline in the imports of yarn as was to be expected in a market of the nature of the past season and all counts and colours were affected. The total trade decreased by 23 per cent. in quantity and by 30 per cent. in value. Grey yarns fell in value by Rs. 10·30 lakhs, coloured yarns by 17·84 lakhs and medio twist and other kinds by 4·57 lakhs. The common counts, namely, 31 to 40, suffered considerably owing to large stocks, the decrease being Rs. 4·47 lakhs under grey yarns and 12·03 lakhs under coloured yarns. The United Kingdom supplied 96 per cent. of the total quantity of yarn imported.

Cotton piece-goods.—Imports of piece-goods fell by 42 per cent. in quantity and by 44 per cent. in value, the contraction being particularly great in greys, of which enormous stocks had remained at the beginning of the year. Greys were reduced by nearly 53 million yards or by 48 per cent., whites by 12¾ million yards or by 37 per cent. and coloured by 14¼ million yards or by 30 per cent. The chief decreases under grey piece-goods were Rs. 58·23 lakhs under dhutis, saris and scarves, 26·40 lakhs under longcloths and shirtings and 11·36 lakhs under jaconets. Under white piece-goods, jaconets, madapollams, etc., show a decrease of Rs. 10·69 lakhs, nainsooks 7·30 lakhs, longcloths and shirtings 4·91 lakhs, and dhutis and saris 3·56 lakhs. Under coloured piece-goods, prints and chintz, saris and scarves and shirtings declined by Rs. 10·49, 9·52 and 4·34 lakhs, respectively.

Other cotton fabrics.—Under this head, cotton sewing thread shows an increase of Rs. ·35 lakh, but handkerchiefs have shared in the general depression of cotton goods, the importations dropping from Rs. 1·27 lakhs in 1908–1909 to ·06 lakh in 1909–1910. The net result shows a falling off in the total trade from Rs. 3·03 lakhs in 1908–1909 to 2·29 lakhs in 1909–1910 or by ·74 lakh.

Jute and woollen manufactures.—The total value of jute manufactures fell from Rs. 6·45 lakhs to 6·01 lakhs, the slight decrease being due to smaller imports of old gunny bags from Ceylon owing to smaller exports of rice to that colony. The fluctuations under woollen manufactures is small, the value of importations being Rs. 5·19 lakhs against 5·17 lakhs in the previous year, and calls for no remark.

B.—APPAREL.

The total value of imports under this head advanced by Rs. 3·84 lakhs. The value of gold and silver thread rose from Rs. 22·95 lakhs in 1908–1909 to 26·21 lakhs in 1909–1910 owing to recovery of trade and to the demand amongst the wealthier classes of natives for hand made clothe embroidered with gold thread. Apparel (including drapery) rose by Rs. 1·21 lakhs, and haberdashery and millinery by ·92 lakh. Of the total imports of Rs. 39·80 lakhs, the United Kingdom supplied apparel (including drapery, etc.) to the value of 1·66 lakhs, boots and shoes 1·74 lakhs, haberdashery and millinery 4·64 lakhs and hats and caps 2·86 lakhs. France supplied gold and silver thread to the value of Rs. 26·21 lakhs.

C.—OTHER ARTICLES.

The total imports of other manufactured articles expanded by 7 per cent. Paper and paste-board show an increase of Rs. 1·54 lakhs due to larger imports of printing paper from the United Kingdom. The increase of Rs. ·64 lakh under glass and glassware is the result of larger imports of glass bangles of attractive patterns from Austria-Hungary and Germany owing to their growing popularity. Instruments show an increase of one lakh in value mainly under scientific descriptions. The decrease of Rs. ·49 lakh under arms and ammunition occurs in dynamite and other explosives, the result of smaller imports for mining purposes. Matches increased in value from Rs. 9·50 lakhs in 1908–1909 to 10·20 lakhs, the increase being shared between Japan and Austria-Hungary. Under carriages and carts, imports of motor-cars and motor cycles rose from Rs. 2·83 lakhs to 4·49 lakhs, imports of cycles from 3·55 lakhs to 4·13 lakhs and of carriages from 1·89 lakhs to 1·80 lakhs. Cement fell from Rs. 5·66 lakhs to 4·21 lakhs in consequence of large stocks and soap rose from 3·72 lakhs to 5·19 lakhs owing to recovery of trade. Tea chests of wood rose by Rs. 1·10 lakhs in consequence of the larger outturn of tea. The value of the articles imported by post was nearly the same as in the previous year, viz., Rs. 10·38 lakhs.

EXPORTS.

FOREIGN MERCHANDISE.

The value of re-exports which stood at Rs. 10·30 lakhs in 1908–1909 advanced to Rs. 14·43 lakhs in 1909–1910. Cotton piece-goods, which form the chief item under this head, rose from 1,856,251 yds., valued at Rs. 4·09 lakhs in 1908–1909, to 2,148,922 yds. valued at Rs. 5·42 lakhs in 1909–1910, Ceylon and the Straits Settlements absorbing, respectively, Rs. 2·05 and 2·71 lakhs against Rs. 1·79 and 2·02 lakhs in the previous year. Other items which entered into the re-export trade were jewellery Rs. 1·99 lakhs, articles re-exported by post Rs. 2·34 lakhs and musical instruments Rs. ·88 lakh, against Rs. ·26, 1·26 and ·33 lakhs, respectively, in the previous year.

I.—ANIMALS, LIVING.

The trade under this head comprised cattle, sheep and poultry to Ceylon and the Straits Settlements and the small increase of Rs. 86 lakh calls for no remark.

II.—ARTICLES OF FOOD AND DRINK.

Coffee.—The exports were as follows:—

Exports of coffee show a decline of 23 per cent. in quantity and 21 per cent. in value. Excluding the figures for 1906–1907 the quantity exported was the smallest during the decade and the value, the smallest during the past 20 years, the average value having fallen from Rs. 63–2–0 per cwt. 20 years ago to Rs. 47–4–0 in 1909–1910. The shrinkage in the volume as compared with the previous year is due to the shortness of local crops. The heavy reserves in Brazil created by the

valorization scheme, and the exceedingly good crop there during the year also contributed to the fall. The use of substitutes is said to have increased largely in Germany and this must also have had a material influence on the trade. Since the world's supply of coffee is virtually controlled by Brazil, it is not surprising that the trade in India should have been affected by the heavy reserves elsewhere. The shipments to the United Kingdom and France represent 47 and 33 per cent. of the total exports; while the exports to the United Kingdom fell by 16 per cent. below those of the previous year, those to France fell by 41 per cent.

Fruits and vegetables.—The total value of exports of fruits and vegetables amounted to Rs. 86·13 lakhs against Rs. 61·48 lakhs in the previous year. The exports of cocoanut kernel or copra amounted to 532,176 cwts. valued at Rs. 74·19 lakhs against 388,993 cwts. valued at Rs. 52·02 lakhs and surpassed all previous records. The increase is due to heavy crops and to the high price fetched owing to the strong demand from the Continent. Great improvements have been made in the preparation of oil from copra and large quantities which used to be prepared for soap-makers are now being consumed as food both in Europe and in the United States. The short supply of olive oil in Europe and of American cotton oil assisted in the growth of this trade. As the preparation of edible cocoanut oil is a paying enterprise, this development is likely to continue. Exports to Germany increased by Rs. 27·62 lakhs while those to Russia, Denmark and France fell by Rs. 9·29, 1·52 and 1·35 lakhs respectively. Owing to want of shipping facilities at the ports of Travancore, a large volume of Travancore copra was exported from the British Indian ports, especially from Cochin.

The subjoined table presents in detail a view of the exports of the several products of the cocoanut palm to foreign countries during the past two years:—

Under fresh vegetables, the chief exports were of onions and potatoes, whose value rose to Rs. 11·81 lakhs, an increase of Rs. 2·77 lakhs over the previous year's figures. Exports to Ceylon and the Straits Settlements amounted to Rs. 7·61 and 2·10 lakhs, respectively, against 6·59 and 2·44 lakhs in the previous year.

Grain and pulse.—The total exports of grain and pulse fell by 34 per cent. in volume and 41 per cent. in value.

There was a smart recovery from the diminished trade of the previous year in respect of paddy, exports of which amounted to 347,023 cwts. valued at Rs. 11·23 lakhs against 178,162 cwts. valued at Rs 6·60 lakhs in the previous year. The rise in the price of paddy in Akyab led the merchants in Jaffna to import this commodity from the northern ports of this Presidency. The exports of rice for 1909–1910 fell by 40 per cent. in volume and 44 per cent. in value below those of 1908–1909, the decrease being chiefly noticeable in exports to Ceylon and Mauritius. Good crops and cheap prices in Burma combined with bad harvests owing to the failure of the North-East monsoon in Southern India led to a very large increase of exports from Burma to Ceylon and a corresponding decrease in the exports from this Presidency. Owing to the poverty of outturn in the crop, the exportable surplus was diminished and Madras had to get from Burma nearly double the quantity of rice and paddy obtained in 1908–1909. The exports from Karikal and Pondicherry amounting to 70,355 cwts. valued at Rs. 4·96 lakhs have been treated as exports from the Madras Presidency. The average price per cwt. of paddy and rice is given in the subjoined statement for the last ten years:—

The exports of pulse fell by 7,705 cwts valued at Rs. ·46 lakh. The fluctuations in other grains are small.

Spices.—Exports of spices rose in value from Rs. 40·21 lakhs to Rs. 48·52 lakhs. The Rs. 8·31 lakhs so gained represents an increase of 20 per cent., pepper being the most important item. The principal sub-heads are shown below:—

The pepper crop of 1909–10 was a bumper one and exports increased by 3,212,298 lbs. in quantity and Rs. 7·57 lakhs in value. The increase is attributable to a strong demand from the Continent and America. The United Kingdom took pepper to the value of Rs. 2·39 lakhs, Germany Rs. 6·36 lakhs, Austria-Hungary Rs. 1·75 lakhs, America Rs. 6·92 lakhs and Italy Rs. 5·39 lakhs. Ginger dropped by 30 per cent. The large trade in the previous year apparently led to a heavily stocked market, resulting in a diminished demand and consequent decrease in the exports of the year. As a set off against the decrease in foreign exports of Rs. 1·26 lakhs there was an increase of Rs. 1·41 lakhs in the value of the coastwise exports of this article to Bombay. Exports of chillies show a decrease of 157,826 lbs. in quantity and an increase of Rs. 1·28 lakhs in value. The rise in price is due to small stocks available for export. Ceylon took chillies to the value of Rs. 11·31 lakhs and the Straits Settlements Rs. 3·03 lakhs against 11·37 lakhs and 1·58 lakhs in the previous year. Exports of cardamoms improved by 25,190 lbs. valued at Rs. ·82 lakh. The trade was chiefly divided between the United Kingdom and Ceylon.

Sugar.—Exports of sugar dropped from 173,105 cwts. valued at Rs. 9·79 lakhs to 119,719 cwts. valued at 7·44 lakhs, the result of smaller exports of unrefined sugar (15 Dutch standard and below) to the United Kingdom on account of the poor sugarcane crops and high prices ruling for jaggery.

Tea.—The exports were distributed as follows:—

Of the above total— Green Tea	2,559	7,127	72,761	59,621	..	..	..	..	..	..

The trade in the exports of tea to foreign countries which has shown a remarkable development during the decade amounted to 17·1 million pounds valued at Rs. 115·73 lakhs against 16·61 million pounds valued at Rs. 111·98 lakhs in the previous year. How great the expansion has been can be judged from the fact that the trade which amounted to 4·42 million pounds valued at Rs. 33·55 lakhs in 1899–1900 went up by 287 per cent. in quantity and 245 per cent. in value in the past year. The increase in the exports to the United Kingdom is partly due to the expansion in Home consumption resulting from the grant of old age pensions, as well as to the increased demands of a growing population, to low duty paid stocks in the country and to the more attractive quality and the character of the blends. The total area under tea cultivation including that for Travancore and Cochin was 43,871 acres in 1909 against 41,730 in 1908 and 33,279 in 1899 and the production was 18·54 million pounds in 1909 against 17·03 million pounds in 1908 and 3·90 million pounds in 1899. The United Kingdom, which continues to be the distributing centre for the European and American markets, took 55 per cent. of the total exports, while Ceylon and Canada each took 22 per cent., the shipments to the former being cargo destined to other countries. There were no exports of green tea during the year under review.

III.—METALS AND MANUFACTURES OF METALS.

Manganese ore is by far the chief item under metals. The dullness of business in the iron and steel industries brought about a reaction in the exports, the quantity receding from 1,523,000 cwts to 1,352,000 cwts. and the value from Rs. 9·42 lakhs to Rs. 5·53 lakhs. Of the total, the United Kingdom took 528,000 cwts. against 703,000 cwts. while the United States took 524,000 cwts. against 609,000 cwts. in the previous year. There were no exports to France or Belgium, although in the preceding year shipments to those countries amounted to 141,000 cwts. and 70,000 cwts. respectively.

IV.—CHEMICALS, DRUGS, MEDICINES AND NARCOTICS AND DYEING AND TANNING MATERIALS.

The total value under this head fell by Rs. ·08 lakh. Cinchona bark shows an increase of 689 cwts. in quantity and Rs. ·20 lakh in value, but did not reach the average of the previous five years owing to the decline in the industry in consequence of the competition of Java bark. Other items of importance were senna leaves and *nux-vomica*. The value of senna leaves exported to the Continent and America was Rs. 5 lakhs against Rs. 3·84 lakhs in the previous year. Exports of *nux-vomica* increased from 24,447 cwts. valued at Rs. 1·35 lakhs in 1908–1909 to 28,797 cwts. valued at Rs. 1·49 lakhs in 1909–1910. The trade in leaf tobacco advanced from 1,437,696 lbs. to 1,444,632 lbs. in quantity and from Rs. 2·32 lakhs to Rs. 2·78 lakhs in value. The bulk of the exports was to the Straits Settlements which took 1,374,812 lbs. valued at Rs. 2·60 lakhs against 1,282,657 lbs. valued at Rs 2·20 lakhs in the previous year. Much of the leaf is of the description consumed in the hookah. Cigars advanced from 579,802 lbs. valued at

Rs. 5·27 lakhs to 697,507 lbs. valued at Rs. 5·57 lakhs. United Kingdom took cigars to the value of Rs. 2·01 lakhs and the Straits Settlements Rs. 1·83 lakhs. The total value of dyeing and tanning materials fell by Rs. 2·32 lakhs or 14 per cent. Following a decline, which has been practically continuous for some years, there was again a considerable decrease in the exports of indigo in the year under review. Exports declined in volume by 21 per cent. and in value by 23 per cent. and were the smallest on record. This trade is being killed by the competition of synthetic indigo. United Kingdom reduced its demand from 629 cwts. to 303 cwts. and Egypt from 2,412 cwts. to 1,564 cwts. The trade in myrabolams fell from 192,356 cwts. valued at Rs. 5·09 lakhs to 161,688 cwts. valued at Rs. 4·44 lakhs. The United Kingdom absorbed 2·72 lakhs and the United States of America 1·44 lakhs against 3 lakhs and 1·52 lakhs in the previous year. The exports of turmeric maintained their progress by a further increase of 1,561 cwts. or 5 per cent. in quantity. This, however, was accompanied by a drop in price, bringing its total value lower by Rs. ·04 lakh or 1 per cent.

V.—OILS.

Exports of oils show a set back of 10 per cent. in quantity and 6 per cent. in value. They comprise animal, essential, mineral and vegetable oils. Of the essential oils, lemon grass oil is by far the most important. The exports of this oil amounted to 11,815 gallons valued at Rs. 1·89 lakhs and do not show much variation. Cocoanut oil which represented 89 per cent. of the oils exported dropped from 2,813,764 gallons valued at Rs. 39·71 lakhs to 2,498,291 gallons valued at Rs. 37 09 lakhs — a decrease in quantity of 315,473 gallons or 11 per cent. and in value Rs. 2 62 lakhs or 6 per cent. The decrease is more than counterbalanced by the larger exports of copra to Germany, where improved methods have been adopted for obtaining from it both cake and oil. The price of the oil has also risen in sympathy with other edible oils, the average price of Rs. 1–8–0 per gallon being the highest in the decade except that of 1902–1903. A noticeable feature in this year's trade is the large quantity sent to Germany and the small shipment to the United Kingdom. While Germany and Belgium increased their demands from Rs. 11·64 lakhs and Rs. 5·54 lakhs in the previous year to Rs. 14·78 lakhs and Rs. 6·22 lakhs in the year under review, the United Kingdom and the United States of America reduced theirs from Rs. 9·82 lakhs and Rs. 9·95 lakhs to Rs. 4·79 lakhs and Rs. 8·89 lakhs.

VI.—RAW MATERIALS AND UNMANUFACTURED ARTICLES.

The total value of raw materials increased by Rs. 197·60 lakhs or 36 per cent.

Bristles and fibre for brushes and brooms.—The fibre is mainly obtained from the palmyra palm and is exported from Cocanada, Tuticorin and some ports on the West Coast. The trade amounted to Rs 14·75 lakhs, against 12·13 lakhs in the previous year, the chief consumers being Germany, the United Kingdom, and Belgium which took respectively shipments to the value of Rs. 4·68, 4·57, and 3·92 lakhs against 4·57, 2·97 and 3·09 lakhs in the previous year.

Raw cotton represented 42 per cent. of the total value of raw materials exported. A good crop followed by high prices in consequence of short crops in the United States and Egypt led to increased exports to the Continent and Japan. The exports were the largest on record excepting those of 1907–1908 and rose by 15 per cent. in quantity and 36 per cent in value compared with the previous year. Owing to high prices every available supply was shipped during the first half of the year, in consequence of which a large quantity had to be imported from Bombay during the latter half for use in the local mills. The local price of cotton rose gradually from Rs. 137 per candy of 500 lbs. at the beginning of the year to Rs 195 at the close of the year. Japan, one of the largest consumers of Indian cotton, which it sells to China in a manufactured state, took 68 per cent. more than in the previous year. Germany increased her demand by 31 per cent., Austria-Hungary 23 per cent., Italy 9 per cent., and Holland 7 per cent. Exports to Belgium and France show decreases both in quantity and value while those to the United Kingdom show a decrease in quantity but an increase in value, indicating high price paid for cotton. The distribution of trade under the three main commercial varieties were Cocanadas 166,892 cwts. against 211,290 cwts. in the previous year; Tinnevellys 515,318 cwts. against 411,623 cwts.; Northerns and Westerns 261,169 cwts. against 198,224 cwts.

Fodder, bran and cattle-food.—The chief item under this head is oil-cake which shows a decrease of 183,609 cwts. in quantity and Rs. 8·25 lakhs in value, owing to smaller exports of ground-nut cakes to Germany which is largely supplied by France, where enormous quantity of oilseeds are crushed by improved methods.

Hemp.—The exports of hemp fell from 37,826 cwts. valued at Rs. 4·55 lakhs to 36,860 cwts. valued at 4·24 lakhs. The United Kingdom also [illegible]ed Rs. 2·13 lakhs and Italy 2·05 lakhs.

The export trade in raw hides rose from Rs. ·29 lakh to ·37 lakh and that in raw skins expanded by 27,268 cwts. or 85 per cent. in quantity and by Rs. 22·61 lakhs or 66 per cent. in value. The trade in raw skins which had been stagnant since

the financial crisis in America at the end of 1907 assumed normal proportions in the year under review. Goat skins, which formed 95 per cent. of the total exports of raw skins, increased from 40,658 cwts. valued at Rs. 42 45 lakhs to 65,115 cwts. valued at Rs. 68 73 lakhs, owing to increased demands especially from America and the United Kingdom for chrome tanning purposes. Sheep skins improved by 2,735 cwts. in quantity and 2·39 lakhs in value owing to recovery of trade.

Manures.—Exports fell from 50,606 tons valued at Rs. 28·94 lakhs to 44,833 tons valued at Rs. 25·76 lakhs, the fall being chiefly in oil-cake manure which declined from 30,046 tons valued at Rs. 18·40 lakhs to 22,565 tons valued at Rs. 13·76 lakhs. Of the total exports of manures, Ceylon and France took animal bones valued at Rs. 2·65 lakhs and Rs. 1·19 lakhs respectively. Ceylon, Java, the Straits Settlements and Germany took oil-cake manure to the value of Rs. 8·93, 1·83, 1·06 and 1·79 lakhs respectively. Fish manure valued at Rs. 3·11 lakhs was exported to Ceylon.

Mica.—Exports showed a further decrease of 4,539 cwts. in quantity and Rs. 2·60 lakhs in value. The United Kingdom took Rs. 2·09 lakhs against 4·35 lakhs in the previous year.

Seeds.—The trade in seeds improved by 54 per cent. in quantity and 64 per cent. in value. Castor, cotton, earthnut and sesamum were the principal seeds exported. The distribution of these exports is shown in the following table :—

Castor seeds.—The exports showed a further fall of 4 per cent. in quantity and 11 per cent. in value. The decrease is attributable to a smaller outturn owing to contraction in the area cultivated, preference being given to other crops.

Cotton seeds.—The decrease of 214,548 cwts. valued at Rs. 6·06 lakhs is due to larger local consumption of the seed as cattle-food owing to the scarcity of fodder in the interior of the Presidency, and to the competition in the United Kingdom of Soya bean from Manchuria.

Earthnut seeds.—Earthnuts represented 80 per cent. of the exports of seeds. Exports progressed by 73 per cent. in quantity and 77 per cent. in value. The high prices ruling for cotton seed and linseed caused a firmness of prices in other oleaginous seeds, and America had to indent on France for a larger supply of earthnut oil. This led to a rapid absorption by France of all the available supply of seeds. The demand was so strong that a considerable volume of trade done with Bengal in previous years was diverted to satisfy the continental demands. France absorbed 87 per cent. of the total quantity shipped; this is an increase of 59 per cent. on the previous year's figures. The United Kingdom, Germany, Belgium and Austria-Hungary absorbed the remaining 13 per cent. of the trade. Exports *viâ* Pondicherry amounted to 1,797,329 cwts. against 1,088,205 cwts. in the previous year.

Sesamum seeds.—The trade in sesamum seeds which was in a depressed condition in the previous year rose to its normal state, the increase being 188,133 cwts. in quantity and Rs. 13·52 lakhs in value over the previous year. A large crop consequent on the larger area of cultivation led to a fall in price and a corresponding increase in exports. The average price fell from Rs. 8–5–0 per cwt. to Rs. 7–5–0. Exports coastwise show considerable decrease. France and Austria-Hungary took to the value of Rs. 11·52 lakhs and 2·12 lakhs against ·02 and ·71 lakh, respectively, in the previous year.

Other sorts of seeds increased by 43,819 cwts. in quantity and Rs. 3·75 lakhs in value owing to larger exports of mustard and rape-seeds to Europe.

Silk.—The trade in the exports of raw silk fell from 571,840 lbs. to 559,550 lbs. but the value rose from Rs. 2·79 lakhs to 3·38 lakhs. This is attributable to a rise in the price of wild chasum or waste silk, which formed the bulk of the trade, the average value having risen from As. 7–9 per lb. to As. 10–8. France was the largest consumer and took to the value of Rs. 2·71 lakhs against 2·20 lakhs in the previous year.

Wood.—Exports of wood declined from Rs. 12·61 lakhs to 9·63 lakhs owing to smaller exports of sandalwood, Germany and France taking 1·78 and ·77 lakhs' worth of sandalwood, respectively, against Rs. 3·77 and 2·38 lakhs in the previous year.

Exports of cotton twist and yarn advanced from Rs. 17·29 lakhs to Rs. 28·16 lakhs, an increase of 10·87 lakhs or 62 per cent in value, and were the largest during the past 20 years. This is due to a larger demand and better prices obtained for the yarn in China which is the chief consumer of Indian yarns and took 58 per cent. more yarn than in the previous year.

Cotton piece-goods.—Exports of cotton piece-goods increased by 14 per cent. in quantity and 15 per cent. in value:—

The trade in grey goods, which had gone down since 1906-1907, revived and the exports show an increase of 1,186,318 yards in quantity and Rs. 3·15 lakhs in value over those of the previous year. Shipments to China advanced in value from Rs. ·14 lakh in the previous year to Rs 3·12 lakhs. Exports of coloured piece-goods rose by 4 per cent. in quantity and 11 per cent. in value due to the high prices ruling for cotton and to a greater demand in Ceylon and the Straits Settlements for Indian-made cloth. Exports to these countries increased by 8 and 14 per cent. respectively. The trade with Philippines declined by Rs. 2·04 lakhs, owing to the increased duty imposed under the revised tariff of the United States of America.

Handkerchiefs.—The trade in handkerchiefs made by hand-looms declined from Rs. 9·81 lakhs in the previous year to Rs 8·93 lakhs, the United Kingdom reducing its demand from Rs 9·64 lakhs to 8·73 lakhs. The demand for the hand-loom products is likely to become still less in the future owing to the competition of the mills in the United Kingdom and Germany.

Woollen goods.—The export trade in woollen goods fell from Rs. 4·21 lakhs in 1908-1909 to 3·38 lakhs owing to reduced shipments of carpets and rugs to the United Kingdom.

The trade in coir-matting and coir yarn is almost entirely confined to this Presidency, and the steady growth in the exports was accelerated in 1909-1910. Their value amounted to Rs. 72·28 lakhs against Rs. 61·9 lakhs in the previous year and is the largest on record. Almost all the countries on the continent of Europe participated in the increase. Travancore exported 2·11 lakhs' worth of coir manufactures against 3·37 lakhs' worth in the previous year.

The trade under tanned hides and skins shows a decrease of 1 per cent. in quantity and 5 per cent. in value. Tanned hides developed in trade by 6,556 cwts or 4 per cent. in quantity and by Rs. 2·93 lakhs or 2 per cent. in value. This is due to recovery of trade and to large stocks of locally tanned hides having been held over during 1908–1909 owing to dullness of the market. Almost all the shipments were made to the United Kingdom. Tanned skins, on the other hand, fell by 8 per cent. in both quantity and value. The fall is attributable to the larger demand for raw skins for chrome-tanning in Europe and America in preference to Madras oily-tanned skins, the trade in which (in America) is still very bad. The exports to Belgium were destined for Germany, and the increased exports to that country were owing to the diversion of trade from the United Kingdom which supplied the German market in previous years. The total trade in sheep and goat skins and the average value per lb. for the same are given below :—

Other minor items.—The exports of paints and colours increased by Rs. 1·45 lakhs owing to larger exports of graphite which rose from 29,551 cwts. valued at Rs. 1·66 lakhs to 42,805 cwts. valued at 3 lakhs, the United Kingdom being the chief customer. Articles exported by post improved from Rs. 16·16 lakhs to Rs. 17·86 lakhs, Ceylon chiefly contributing to the increase.

The trade with the British Empire, which, in the year under review, represented 61 per cent. of the aggregate trade as compared with 68 per cent. in the previous year, declined by Rs. 263·29 lakhs or 15 per cent., Rs. 192·15 lakhs of which were

under imports and Rs. 71·16 lakhs under exports, while that with other foreign countries increased by Rs. 184·04 lakhs or 19 per cent., imports falling off by Rs. 16·03 lakhs and exports increasing by Rs. 200·07 lakhs.

BRITISH EMPIRE.

United Kingdom.—The trade with the United Kingdom represented 41 per cent. of the total trade, against 46 per cent. in the previous year, a decline of Rs. 199·10 lakhs or 14 per cent. Both imports and exports declined, the former by Rs. 193·40 lakhs and the latter by Rs. 5·70 lakhs. The decrease under the former head was due to a reduction in the imports of cotton piece-goods and of cotton twist and yarn to the extent of Rs. 152·57 lakhs and Rs. 32·12 lakhs respectively. Under exports, there was a decline in tanned skins of Rs. 16·91 lakhs, in coffee Rs. 11·15 lakhs, in cocoanut oil Rs. 5·03 lakhs, in sugar Rs. 2·57 lakhs, in mica Rs. 2·26 lakhs, and an increase of Rs. 11·29 lakhs under seeds, Rs. 8·86 lakhs under raw cotton, Rs. 8·83 lakhs under raw skins and Rs. 3·67 lakhs under tea.

Ceylon.—The import trade advanced by Rs. 1·96 lakhs owing to larger imports of apparel. Exports declined by Rs. 80·62 lakhs owing to smaller shipments of rice and paddy by Rs. 75·03 lakhs, while shipments of coloured piece-goods increased by Rs. 4·84 lakhs.

Straits Settlements.—The decrease of Rs. 9·62 lakhs under imports was due to smaller imports of rice (Rs. 5·33 lakhs) and pepper (Rs. 1·60 lakhs). There was an increase in exports by Rs. 14·77 lakhs mainly in coloured piece-goods (Rs. 5·76 lakhs), rice (Rs. 2·06 lakhs), fresh vegetables (Rs. 1·76 lakhs), chillies (Rs. 1·45 lakhs) and raw cotton (Rs. 1·07 lakhs).

Other countries in the British Empire.—The increase of Rs. 1·84 lakhs in the total trade with Hongkong was due to larger shipments of raw cotton to that country. The import trade with Natal improved by Rs. 2·21 lakhs chiefly in coal. The fall in the trade with Mauritius was mainly due to smaller exports of rice by 23·88 lakhs. The increase of Rs. 7·27 lakhs in the imports from West Australia was owing to larger imports of railway sleepers (Rs. 5·44 lakhs).

CONTINENTAL EUROPE.

The trade with the Continent of Europe (excluding the United Kingdom) increased by Rs. 93·88 lakhs or 14 per cent. Imports declined by Rs. 19·69 lakhs but exports increased by Rs. 113·57 lakhs. The trade with Russia declined by Rs. 9·33 lakhs owing to smaller imports of kerosene oil and smaller exports of copra. Iron was responsible for the decline in the import trade with Sweden. The export trade with Germany shows a remarkable development from Rs. 114·18 lakhs in 1908-1909 to Rs. 153·14 lakhs, an increase of Rs. 38·96 lakhs or 34 per cent. This is attributable to larger exports of copra (Rs. 27·62 lakhs), raw cotton (Rs. 7·54 lakhs), coir manufactures (Rs. 6·15 lakhs), cocoanut oil (Rs. 3·14 lakhs) and pepper (Rs. 2·23 lakhs). Oil-cake to Germany declined by Rs. 7·47 lakhs. The increase of Rs. 4·93 lakhs in the export trade with Holland was due to larger shipments of raw cotton and coir manufactures. The import trade with Belgium declined by Rs. 12·12 lakhs owing to smaller supplies of iron and steel, against an increase of Rs. 16·57 lakhs under exports chiefly in oilseeds and tanned skins. To France shipments of groundnut seeds increased by Rs. 64·87 lakhs and jingili seeds by Rs. 10·41 lakhs, but there was a decrease by Rs. 21·34 lakhs under coffee and Rs. 6·18 lakhs under cotton. The total trade with Austria-Hungary improved by Rs. 9·93 lakhs owing to larger imports of glass bangles and larger exports of raw cotton and oil-seeds.

ASIA.

The trade with Asiatic ports, other than British, improved by Rs. 84·06 lakhs or 57 per cent. Sumatra and Dutch Borneo supplied less kerosene oil than in the previous year, which accounts for a smaller trade with these countries. The increase of Rs. 13·82 lakhs in the imports from Java was due to larger imports of sugar, while the fall in the trade with the Philippines was in consequence of smaller exports of coloured piece-goods. The export trade with China increased by Rs. 11·83 lakhs owing to larger shipments of cotton twist and yarn and grey piece-goods. The trade with Japan shows considerable expansion from Rs. 84·79 lakhs in 1908–1909 to Rs. 156·32 lakhs in 1909–1910, an increase of 71·63 lakhs or 84 per cent. due to larger purchases of Indian cotton (Rs. 70·90 lakhs).

AFRICA.

The trade with Africa shows a decrease of Rs. 2·70 lakhs due to smaller purchases of indigo for Egypt.

AMERICA.

The trade with America improved by Rs. 8·80 lakhs. The decrease of Rs. 2·89 lakhs in the imports from the United States was due to smaller imports of kerosene oil, while the increase in the exports to that country, amounting to Rs. 11·71 lakhs, was the net result of larger exports of raw skins (Rs. 12·86 lakhs) and pepper (Rs. 4·74 lakhs) and smaller exports of tanned skins (Rs. 8·42 lakhs).

Gold.—Imports of gold increased by Rs. 62·20 lakhs or 131 per cent. 69 per cent. of the gold imported consisted of sovereigns which rose from Rs. 27·92 lakhs to 76·47 lakhs; an increase of 48·55 lakhs or 174 per cent. Bar gold increased from Rs. 18·97 lakhs to 33·02 lakhs. Of the total imports of gold, the United Kingdom and Australia supplied to the value of Rs. 61·39 and 46·88 lakhs against 35·41 and 4·50 lakhs, respectively, in the previous year. Imports from Natal fell from Rs. 5·25 lakhs to ·02 lakh. The quantity of gold exported was very small.

Silver.—Imports of silver fell by Rs. 1·23 lakhs. Silver bar shows very little variation, the imports being Rs. 20·11 lakhs against 20·17 lakhs in the previous year. Imports of Government of India rupees fell from Rs. 1·47 lakhs to ·31 lakh. The United Kingdom supplied almost the whole of silver. Exports of silver increased by Rs. 40·27 lakhs owing to larger shipments of Government of India rupees to Ceylon.

GOVERNMENT TRANSACTIONS (FOREIGN TRADE).

The total value of Government stores imported and exported, during the year under review, amounted to Rs. 39·77 lakhs and 1·20 lakhs, respectively, against Rs. 38·89, and 1·65 lakhs in the previous year. The increase of Rs. ·88 lakh under imports is the net result of larger imports of iron and steel (4·60 lakhs), instruments (1·19 lakhs), hardware and cutlery (1·35 lakhs), partly counterbalanced by smaller imports of apparel (1·91 lakhs), telegraph materials (1·30 lakhs), woollen piecegoods (1·28 lakhs), cotton coloured piecegoods (1·04 lakhs) and books (·59 lakh). The decrease of Rs. ·44 lakh under exports was under apparel. The transactions were, as usual, chiefly with the United Kingdom.

SHIPPING (FOREIGN TRADE).

The number of vessels that either entered or cleared at ports in this Presidency decreased from 3,367 vessels in 1908–1909 to 3,151 vessels in 1909–1910 and their tonnage from 4,009,807 to 3,863,334 tons, the average tonnage of 1,226 tons, however, showing an advance of 36 tons. 1,561 vessels aggregating 1,948,959 tons entered, and 1,590 vessels aggregating 1,914,375 tons cleared, a decrease of 67 vessels and 28,850 tons in entries and of 149 vessels aggregating 117,793 tons in clearances. 338 vessels aggregating 178,652 tons entered in ballast against 349 vessels of 129,076 tons and 210 vessels of 140,618 tons cleared in ballast against 211 of 129,453 tons in 1908–1909. Of the entries, vessels flying the British flag fell from 839 to 805 but their tonnage increased from 1,572,452 to 1,618,789 tons, while British Indian vessels rose from 252 to 296, but their tonnage declined from 95,470 to 29,858. Those plying under foreign colours increased from 98 to 101 (German 73, Austro-Hungarian 9, Dutch 7, Danish 4, Norwegian 3, Swedish 2, Japanese, Australian and Portuguese each 1), but their tonnage dropped from 286,452 to 279,507. The number of British vessels that cleared fell from 867 to 811 and their tonnage from 1,626,760 tons to 1,562,480. In the case of the British Indian vessels, the number

increased by one, but the tonnage fell by 76,109. Vessels flying the foreign flag increased from 77 to 78 but the tonnage fell from 199,268 to 197,529. Of the foreign vessels 35 were German, 13 Austro-Hungarian, 9 Japanese, 8 Italian, 6 Danish, 4 Dutch, 4 Norwegian, and 1 Swedish.

COASTING TRADE.

The aggregate coasting trade amounted to Rs. 15, crores and 53 lakhs against 13 crores and 73 lakhs, and was the largest in the decade, showing an advance of 1 crore and 80 lakhs or 13 per cent. The total trade, excluding Government transactions and treasure, amounted to Rs. 15 crores and 9 lakhs, and was made up of 12 crores and 82 lakhs in the trade with the British ports in other Presidencies, 31 lakhs in the trade with Indian ports not British and 1 crore and 96 lakhs in the interportal trade or trade within the Presidency. The real value of the interportal trade is one half of that given here, as the same goods are registered twice—once as exports at one port, and again as imports at another. The total trade with Bengal decreased by Rs. 49 lakhs and with Eastern Bengal and Assam by 1¾ lakhs, while that with Bombay increased nearly by 28 lakhs, with Burma by 179 lakhs, with Sind and Indian Ports not British, each by 1 lakh, and with ports within the Presidency by 4 lakhs.

Imports (coasting trade).—The value of Indian produce increased by Rs. 241 lakhs and that of Foreign merchandise decreased by 6 lakhs. Imports of grain and pulse rose from Rs. 362 lakhs in 1908–1909 to 589 lakhs, an increase of 227 lakhs or 63 per cent., owing to the unfavourable agricultural season in the southern portion of the Presidency. Towards this increase Burma contributed 186 lakhs, Bengal and Bombay 13 lakhs each. Shipments from Burma of kerosene oil and teakwood also increased by Rs. 14 lakhs and 4½ lakhs, respectively, and those of raw cotton from Bombay increased by 13¾ lakhs, while imports of jute gunny bags and coal from Bengal were less in value by 10 lakhs and 6 lakhs respectively.

Exports (coasting trade).—Indian produce fell by Rs. 71 lakhs, the decrease being distributed between Burma and Bengal. Shipments of earthnut seeds, earthnut oil and turmeric to Bengal were smaller by Rs. 44·89, 1·85, and 2·51 lakhs, respectively; and those of earthnut oil, jinjili seeds and cotton twist to Burma by Rs. 17·90, 3·48 and 5·19 lakhs. Shipments of cocoanut oil to Bengal and cotton raw to Bombay were however larger by Rs. 8·82 and 7·94 lakhs, respectively.

Treasure (coasting trade).—The movements of treasure by sea during the year amounted to Rs. 19·12 lakhs against 1·64 lakhs in the previous year, 17·84 lakhs being on Government account. Exports of sovereigns to Rangoon amounted to 15 lakhs, and of Government of India rupees to Bombay and Rangoon to 2·84 lakhs.

Government Transactions (coasting trade).—Imports of Government stores declined from Rs. 12·41 lakhs in 1908–1909 to Rs. 11·04 lakhs while the exports increased from Rs. 11·82 lakhs to Rs. 14·45 lakhs. The fall in imports was caused by smaller imports of arms and ammunition while the increase in exports is attributable to large shipments of the same articles.

Shipping (coasting trade).—Vessels plying in the coasting trade declined from 39,158 to 38,083 but the tonnage increased from 16,493,970 to 16,913,319. Entries decreased by 563 while the tonnage increased by 159,133. The number of vessels cleared fell from 19,553 of 8,310,013 tons to 19,046 of 8,465,229 tons. Of the total number of vessels engaged in the coasting trade 6,571 were British, 766 British Indian, 278 Foreign and 30,468 native crafts—against 6,551, 475, 156, and 31,876, respectively, in 1908–1909. Of the native crafts 120 were British, 29,478 British Indian and 870 Foreign—against 134, 30,736 and 1,006 in the previous year.

TRADE OF THE IMPORTANT PORTS OF THE MADRAS PRESIDENCY.

Chief Port (Fort St. George).—Although the trade of Madras port, constituting 39 per cent. of the total trade of the Presidency in the year under review, was less by Rs. 105·17 lakhs than in the previous year, the reduction of five per cent. being to the extent of Rs. 93·56 lakhs in foreign trade and 11·61 lakhs in coasting

trade, yet its total value of Rs. 1,778·38 lakhs represented an increase of 44 per cent. over the figures of twenty years ago. Imports of merchandise from foreign countries fell in value by Rs. 225·13 lakhs chiefly owing to smaller imports of cotton twist and yarn and piece-goods (184·73 lakhs), kerosene oil (16·57 lakhs) and metals (15·12 lakhs), while exports to foreign countries increased by Rs. 69·25 lakhs or 12 per cent., the result of larger shipments of raw cotton (32·40 lakhs), raw skins (28·63 lakhs) and earthnut seeds (15·30 lakhs). Movements of treasure also increased by Rs. 62·81 lakhs owing to larger imports of bar gold and sovereigns. Under coasting trade, imports improved by Rs. 16·16 lakhs in consequence of larger imports of grain and pulse and kerosene oil, while exports decreased by 27·79 lakhs mainly under earthnut seeds, raw cotton, turmeric and provisions.

Tuticorin.—This port ranks foremost in trade among the subordinate ports and second to Madras. Its trade value, which represented in the year under review 16 per cent. of the total trade of the Presidency, has been steadily increasing from Rs. 273·95 lakhs in 1899–1900 to Rs 748·26 lakhs in 1909–1910, a rise of 173 per cent. As compared with the previous year, the trade shows an increase of Rs. 139·39 lakhs or 23 per cent., the result of concentration of trade at Tuticorin at the expense of the minor ports in the Tanjore and Madura districts owing to improved facilities by rail for transport to the sea-port. Both imports from and exports to foreign countries show marked increases of Rs. 11·54 and Rs. 54·06 lakhs, respectively. The increase in imports was due to larger imports of machinery, millwork and sundries, and that in exports to larger exports of raw cotton (Rs. 59·47 lakhs) and cotton twist (Rs. 11·13 lakhs), although rice fell on by Rs. 22·20 lakhs. The movement of treasure also increased by Rs. 13·06 lakhs in consequence of larger exports of Government of India rupees to Ceylon. Imports coastwise developed by Rs. 49·16 lakhs as a result of larger imports of grain and pulse, while larger exports of grain and pulse and cardamoms account for an increase of Rs. 10·92 lakhs under coastwise exports.

Cochin.—Cochin took second place among the subordinate ports, her trade value being Rs. 601·53 lakhs against Rs. 143·03 lakhs in 1889–1890 and Rs. 496·72 lakhs in 1908–1909. Compared with the previous year, the trade shows an increase of Rs. 104·81 lakhs or 21 per cent. which can be traced to the development of the cocoanut industry in recent years in Malabar and Travancore, whose products, copra, cocoanut-oil, oil-cake and coir manufactures find a ready market in the European countries, especially Germany, and to the increased imports coastwise of food-grains for distribution to other places on the West Coast owing to the high prices prevailing in the interior of the Presidency.

Cocanada.—This port stands third among the subordinate ports as regards trade. On account of a heavy falling off in the exports of rice to Ceylon and Mauritius, her trade value declined from Rs. 323·59 lakhs in 1908–1909 to Rs. 274·01 lakhs in 1909–1910.

Calicut.—Although the trade of Calicut (Rs. 215·61 lakhs) fell short of that of the previous year by Rs. 5·82 lakhs, it is still larger than the average trade of the previous 10 years. Kerosene oil, which formed the chief item of imports from foreign countries, fell from Rs. 7·14 lakhs in 1908–1909 to Rs. 4·80 lakhs. The principal articles of exports to foreign countries were coffee, copra, tea and spices, which, respectively, amounted to Rs. 16·12 lakhs, 17·70 lakhs, 26·54 lakhs, and 11·19 lakhs against Rs. 24·07 lakhs, 13·30 lakhs, 25·74 lakhs, and 9·57 lakhs in the previous year.

Negapatam.—There has been a steady increase in the trade of this port since 1899–1900, the rise being from Rs. 92·41 lakhs in 1899–1900 to Rs. 146·17 lakhs in 1908–1909 and to Rs. 207·74 lakhs in 1909–1910. The increase of Rs. 61·57 lakhs over the previous year's figures was the result of shipments of earthnut seeds to foreign countries rising from Rs. 36·19 lakhs to Rs. 76·41 lakhs and of imports coastwise of grain and pulse rising from Rs. 14·62 lakhs to Rs. 61·78 lakhs. The export trade, however, of rice to foreign countries fell by Rs. 8·83 lakhs.

Mangalore.—The trade of Mangalore, which rose from Rs. 155·79 lakhs in 1899–1900 to 159·22 lakhs in 1908–1909, fell to 149·62 lakhs in 1909–1910 in consequence of smaller exports of coffee to foreign countries.

Cuddalore.—Cuddalore adjoins the groundnut country and the trade, which had increased from Rs. 74·01 lakhs in 1899–1900 to Rs. 158·46 lakhs in 1908–1909, fell to Rs. 144·86 lakhs in the year under review, as a result of smaller exports of earthnut oils and earthnut seeds coastwise.

Other subordinate ports.—The trade of Vizagapatam fell by nearly Rs 3 lakhs as compared with that of the previous year owing to smaller exports of manganese ore and sugar, while that of Bimlipatam rose by Rs. 10·23 lakhs as a result of larger exports of rape and jinjili seeds. The trade of Masulipatam was normal, the small decrease from the previous year's figures being the result of smaller imports of cotton piecegoods. Porto Novo has of late become a centre of the groundnut trade, its transactions increasing from Rs. 34·39 lakhs to Rs 53·29 lakhs as a result of larger exports of groundnut seeds. Larger imports of grain and pulse, especially from Burma, increased the trade of Cannanore and Badagara, the latter of which exported more copra to foreign countries than in the previous year. The export trade of Tellicherry was affected by smaller crops of coffee which were, however, counterbalanced by larger imports of grain and pulse coastwise, bringing the total trade to normal conditions.

ADMINISTRATION.

Receipts.—The total receipts for the Presidency under all heads amounted to Rs. 60,64,389 against Rs. 68,51,573 in the previous year. The following statement shows how they were distributed between the Port of Madras, the outports, and Land Customs stations:—

	1907–1908			1908–1909.			1909–1910.

Madras.—The decrease of Rs. 5·26 lakhs in import duty was mainly due to smaller imports of cotton manufactures. The bulk of the miscellaneous receipts consisted of excise duty on cotton manufactures amounting to Rs. 1,45,334 against Rs. 1,42,295 in the previous year.

Outports.—The decrease in import duty occurred chiefly at the ports of Calicut and Cochin owing to smaller imports of kerosene oil, and in export duty at Cocanada, Negapatam and Tuticorin in consequence of smaller exports of rice and paddy The decrease in duty receipts at Cocanada was Rs. 1,36,013 or 33 per cent., at Negapatam Rs. 34,111 or 55 per cent. and at Tuticorin Rs. 79,603 or 28 per cent.

Land Customs.—Receipts under Land Customs increased from Rs. 2,09,731 to Rs. 2,17,815, of which Rs. 18,978 represented the export duty on rice collected by the French Government on behalf of the Government of India Of the total collection, the receipts on the Karaikal Frontier amounted to Rs. 1,44,827, on the Pondicherry Frontier to Rs. 69,086, while the stations round the settlements of Mahé and Yanam accounted for the balance of Rs. 3,902.

Disbursements.—The total disbursements on account of customs for the whole Presidency are not easily ascertainable for the reasons mentioned last year. Those at the chief port amounted to Rs. 2,66,109 or Rs. 27,147 more than those in 1908–1909 The increase was due to the revision of the Customs Establishments in the year under review and also to a larger amount paid as drawbacks on commercial travellers' samples and as refunds on hardware.

Offences—(*a*) Cases adjudged under the Sea Customs Act.—The total number of offences dealt with under the Sea Customs Act during the year was 1,928 against 1,504 in 1908–1909. The total penalties and extra duty realised amounted to Rs. 11,427 and Rs. 1,528, respectively, against Rs. 10,835 and Rs. 1,169 in the

previous year. Of the 1,923 cases, 1,218 were disposed of by the Collector of Sea Customs, Madras, and the remaining 715 cases by the Customs Collectors at outports. The nature of the offences and the amount of penalties imposed were as follows :—

Offence.	Number of cases	Amount of penalties Rs.
(1) Undervaluation of goods	81	1,286
(2) Smuggling of goods	127	2,187
(3) Importation of prohibited articles	20	164

(10) Landing goods without a boat note	513	1,497
(11) Other offences	..	..
Total ..	1,226	11,427

The amount granted in rewards was Rs. 1,908, out of which Rs. 48 was paid to informers.

(*b*) **Offences under the Land Customs Act.**—Under the Land Customs Act, 741 offences are reported to have occurred during the year as against 814 in the previous year. The following statement shows the number of cases of detention and confiscation during the past three years :—

Frontier.	1907-1908		1908-1909.		1909-1910.

In 589 of these cases the articles seized were confiscated, in 98 the goods were released on payment of duty and in 54 they were released without payment of duty. There were no cases pending at the close of the year.

(*c*) **Cases under the Merchandise Marks Act.**—The total number of cases dealt with under this Act was 176 as compared with 76 in the previous year. Of these, 168 occurred at the chief port and 8 at outports. The statement below shows briefly their nature and the manner in which they were dealt with :—

Class of case	I Passed without correction of marking or penalty.	II Passed on correction of marking without penalty.	III Passed with nominal penalty	IV Passed with heavier penalty or reshipped or confiscated, subject to fine in redemption	Total.

* Reshipped. † 2 Reshipped and 1 confiscated. ‡ Confiscated.

The majority of the cases were under clause B (1) of the statement and were in respect of the use of English words of description without sufficient counter-indication of the country of origin. The more important of them at the chief port under the various clauses are summarised below:—

(1) *Condensed milk.*—A consignment of low grade condensed milk of German manufacture was imported without any indication of the country of origin. A penalty was imposed and the goods were passed after destruction of the labels.

(2) *Striped cotton twills.*—Striped cotton twills of British manufacture with the word "swadeshi" on each piece were imported. A penalty was imposed and the goods were allowed to pass after obliteration of the offending word.

(3) *Gelatine.*—Three consignments of German-made gelatine bearing descriptions in the French language but without the counter-indication of country of origin were imported. In two instances the goods were passed with warnings and after each packet had been correctly marked. In the third a penalty was imposed and the goods were passed after the packets had been correctly marked.

(4) *Camphor.*—Several consignments of Japanese camphor bearing descriptions in English, but without the necessary qualification of country of origin were imported. These were permitted to be cleared on the guarantee of importer that such camphor would be correctly marked after a given date.

(5) *Tools.*—Three consignments of German-made tools bearing descriptions in English without the counter-indication of country of origin were passed on payment of a penalty in each case and after the offending descriptions had been correctly qualified.

(6) *Oleum Copaibae.*—A consignment of a preparation labelled Oleum Copaibae was found on test to consist of a mixture of African and Gurgun oil. The goods were confiscated and allowed to be reshipped on payment of a nominal penalty. Another consignment of a similar nature was permitted to pass on payment of a penalty and after each label had been stamped "adulterated".

In every case falling under clause D, the goods were released after they had been correctly stamped according to the law, and in the majority of cases on payment of small penalties.

The number of offences under C (5) was small, the importations being by private persons.

All the cases were detected by the Appraisers in the ordinary course of their duties.

Of the 8 cases that occurred at outports, 4 were cases of false trade description in respect of the country of origin, 3 related to cases in which lengths as piece-goods were not properly stamped and the remaining case was in respect of the material of which the goods were made.

Penalties were imposed in 82 cases and amounted to Rs. 573.

Appeals.—There were 14 appeals preferred under the Sea Customs Act against 27 in the previous year, 1 to the Government of India, 3 to the Government of Madras, 5 to the Board of Revenue, and 5 to the Collector of Sea Customs, Madras, or the Assistant Commissioners of Salt, Abkári and Customs Department. In 5 cases the original orders were reversed.

Cotton Duties Act.—The total quantity of yarn produced in the Presidency during the year was 40,195,990 lbs. or nearly one million pounds more than in 1908-1909. These figures indicate a steadily increasing demand for the local article.

The production of cloth amounted to 7,738,153 lbs. as against 7,596,473 lbs. in the previous year, the slight increase being due to a better foreign demand. The quantity of cloth exported rose from 1,064,994 lbs. in 1908-1909 to 1,502,192 lbs. during the year under review. The amount of excise duty levied also shows a small increase, being Rs. 1,45,334 as against Rs. 1,42,295 in the previous year. The amount of drawback paid rose from Rs. 4,450 to Rs. 8,165. Dyed and coloured goods formed nearly 50 per cent. of the total production.

The Act worked smoothly throughout the year, and there were no breaches of the law.

Documents.—The documents handled during the year comprised 57,501 bills of entry, 75,727 shipping bills, 21,085 import manifests, 21,008 export manifests and 34,198 other documents or 209,612 in all. The number of documents amended was 8,919 and the fees realised in respect thereof amounted to Rs. 4,212.

Statistical publications.—The sale-proceeds of Statistical publications amounted to Rs. 7,312 against Rs. 7,814 in the previous year and the cost incurred in preparing them fell from Rs. 5,798 to Rs. 5,327 owing to the reduction in the cost of establishment. The introduction of the revised scheme of publications is still pending as the revision of the classified list of articles has been postponed to next year.

Administrative changes.—At the commencement of the year there were 43 ports open to both foreign and coasting trade, one open to foreign trade only and 61 open to coasting trade only. Proposals for withdrawing the provisions of the Indian Ports Act from 32 of the ports are under the consideration of Government as also the question of amalgamating 2 ports into one in four instances. The closure of 26 more ports is also under consideration.

The port of Madras continued to be under the administrative control of the Collector of Sea Customs, Madras, who is also a Chief Customs officer for the Presidency. Towards the close of the year, the sanction of the Government of India to a scheme for the reorganisation of the outports and Land Customs stations and for bringing them under the control of the Collector of Sea Customs, Madras, was received and the scheme was given effect to from 1st April 1910. The sanction of the Government of India has also been received to the creation of an Audit Department.

Establishment.—Mr. C. G. Todhunter, I.C.S., continued to be Collector during the year until he was transferred to Northern India as Inspector-General of Excise on the 1st December 1909. Mr. A. Wolferstan, the Senior Assistant Collector, officiated for him until 31st January 1910 when he was relieved by Mr. G. A. Thomas, I.C.S. Mr. Wolferstan proceeded on combined leave on the 28th March 1910. Mr. C. R. Watkins continued as Assistant Collector until 21st June 1909 when he proceeded to join the Bombay Custom-house. Mr. F. Buckney joined the Madras Custom-house from Rangoon as an officiating Assistant Collector on the 1st June 1909. The year was marked by the death on the 28th January 1910 of Mr. T. H. Puddephatt, Head Appraiser, who was succeeded by the second Appraiser Mr. C. F. Deane.
